

Biodiesel Plant 3 MGY (Item PK-1900)

Biodiesel Plant - 3 MGY (million gallons per year), manufactured by Greenline.

- Plant must move from current location
- Started production in 2008, ran cottonseed oil, and idled in 2010. Continuous flow, water free, transesterification reaction and separation modules. The two-stage transesterification process can handle up to 5% ffa. Skid mounted modular design with small footprint. Includes in-process tanks. No tank farm. Fully automatic with plc control; all controls are still there and intact except for the HMI. This plant was just inspected by the manufacturer in Dec 2021 and all pieces are still there except for some water piping. The manufacturer's estimate is that this plant is in good condition and very little CapEx will be needed to start the equipment back up. Price quoted is Removed and Loaded on trucks.

Additional Options Offered (extra price)

1. \$4M handle freight to your location
2. Greenline refurbish all equipment and make ready for start-up
3. Greenline install and start-up equipment at new location.
